Item 4: Advisory Business

A. Description of the Advisory Firm

This firm has been in business since June 1, 2009, and the principal owner is Richard Emil Freitag.

B. Types of Advisory Services

Freitag Financial Group, LLC (hereinafter "FFG") offers the following services to advisory clients:

Investment Supervisory Services

FFG offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. FFG creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan (the Investment Policy Statement) to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

FFG evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Selection of Other Advisors

FFG may direct clients to third-party investment advisers. Before selecting other advisers for clients, FFG will always ensure those other advisers are properly licensed or registered as investment adviser.

Financial Planning

Depending upon the unique circumstances of each client, a comprehensive financial plan may include some or all of the following planning components: Investments, Retirement, Insurance, Estate, Education and Tax. These services are based on fixed fees or hourly fees and the final fee structure is documented in Exhibit II of the Financial Planning Agreement.

Services Limited to Specific Types of Investments

FFG limits its investment advice and/or money management to mutual funds, equities, bonds, fixed income, debt securities, ETFs, real estate, hedge funds, third party money managers, REITs, insurance products including annuities, private placements, and government securities. FFG may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

FFG offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent FFG from properly servicing the client account, or if the restrictions would require FFG to deviate from its standard suite of services, FFG reserves the right to end the relationship.

D. Wrap Fee Programs

FFG does not participate in any wrap fee programs.

E. Amounts Under Management

FFG has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:

Selection of Other Advisers Fees

FFG may direct clients to third party money managers. FFG may be compensated via a fee share from the advisors to which it directs those clients. This relationship will be disclosed in each contract between FFG and each third party advisor. The fees shared will not exceed any limit imposed by any regulatory agency. The notice of termination requirement and payment of fees for third-party investment advisers will depend on the specific third-party adviser selected.

- ❖ High-Net-Worth Individuals
- ❖ Pension and Profit Sharing Plans

Minimum Account Size

There is no account minimum.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

FFG's methods of analysis include fundamental analysis, technical analysis, and cyclical analysis.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Technical analysis involves the analysis of past market data; primarily price and volume.

Cyclical analysis involved the analysis of business cycles to find favorable conditions for buying and/or selling a security.

Investment Strategies

FFG uses long term trading, short term trading, margin transactions, and options (limited to writing covered calls).

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not work long term.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold : 1) the markets do not always repeat cyclical patterns and 2) if too many investors begin to implement this strategy, it changes the very cycles they are trying to take advantage of.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Short term trading, margin transactions, and options writing generally hold greater risk and clients should be aware that there is a chance of material risk of loss using any of those strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

FFG generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize margin transactions and options writing. Margin transactions, and options writing generally hold greater risk of capital loss and clients should be aware that there is a chance of material risk of loss using any of those strategies.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of this advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Clients may request a copy of our Code of Ethics from management.

B. Recommendations Involving Material Financial Interests

FFG does not recommend that clients buy or sell any security in which a related person to FFG has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of FFG may buy or sell securities for themselves that they also recommend to clients. FFG will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of FFG may buy or sell securities for themselves at or around the same time as clients. Access persons are prohibited from executing a securities transaction during a period of one day before and one day after the day which any client has a pending buy or sell order in the same security until that order is executed or withdrawn; however, in appropriate cases the CCO may waive such prohibition at his discretion if all client trades have been cleared or executed. This policy does not apply to transactions that do not present the potential for conflicts of interest, as set forth under the "Exempted Transactions" section of this policy.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

The Custodian, TD AMERITRADE Institutional, Division of TD AMERITRADE, Inc., member FINRA/SIPC/NFA., was chosen based on their relatively low transaction fees and access to mutual funds and ETFs. FFG will never charge a premium or commission on transactions, beyond the actual cost imposed by Custodian.

1. *Research and Other Soft-Dollar Benefits*

FFG receives no research, product, or service other than execution from a broker-dealer or third-party in connection with client securities transactions ("soft dollar benefits").

2. *Brokerage for Client Referrals*

FFG receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. *Clients Directing Which Broker/Dealer/Custodian to Use*

FFG allows clients to direct brokerage. FFG may be unable to achieve most favorable execution of client transactions if clients choose to direct brokerage. This may cost clients money because without the ability to direct brokerage FFG may not be able to aggregate orders to reduce transactions costs resulting in higher brokerage commissions and less favorable prices.

B. Aggregating (Block) Trading for Multiple Client Accounts

FFG maintains the ability to block trade purchases across accounts but will rarely do so. While block trading may benefit clients by purchasing larger blocks in groups,

we do not feel that the clients are at a disadvantage due to the best execution practices of our custodian.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

Client accounts are reviewed at least quarterly only by Richard Emil Freitag, Managing Director. Richard Emil Freitag is the chief advisor and is instructed to review clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at FFG are assigned to this reviewer.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Richard Emil Freitag, Managing Director. There is only one level of review and that is the total review conducted to create the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least quarterly a written report detailing the client's account which may come from the custodian.

Clients are provided a one-time financial assessment concerning their financial situation. After the presentation of the assessment, there are no further reports. Clients may request additional plans or reports for a fee.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

FFG does not receive any economic benefit, directly or indirectly from any third party for advice rendered to FFG clients.

B. Compensation to Non -Advisory Personnel for Client Referrals

FFG does not directly or indirectly compensate any person who is not advisory personnel for client referrals.
